Dr Hull's Truss For the relief and curs of Hernia, or Rupture.

Dr. AMOS G HULL, having nessed, during twenty five practice in Surgery, the distres practice in Surgery, and state of Rup-inisery attending the disease of Rup-iure and the fital consequences fre-quently incident to it, and being con-vinced that the unhappy effects were generally the result of badly contructed Trusses or the neglect to use any, was prompted from feelings of rofessional duty, and an anxious de sire to witness a more effectual rema-dy, to desc e a share of his time to he construction of an instrument for that purpose. He is now satisfied that e has brought into successful opera ion a Truss, constructed on a new principle and adapted to all cases of Rupture in both sexes; always, with out an exception, fulfilling the indi nfining or keeping up the

nowel, and often, especially in young persons and recent cases, effecting a Let it be observed that the pad of

this truss, instead of being convex like that of all other Trusses, is slightly concave, like the open palm of the hand. This pad being placed ever the rupture and the spring of the russ exerting its power upon the cen re of it, the strong pressure is made by its circular margin, around the rupture opening and a diminished pressure by its centre. It thereby not only prevents the escape of the bowel, but approximates, and often unites the ruptured parties as to effect radical cure of the complaint

The following testimonials in its fa your, are submitted to the public Extract from the second edition of "Thatcher's Modern Practice of Physic," Boston 1826.

of Physic, Dosin 1820.

"A great variety of Trusses, form ed on driftent principles, have been from time to time, introduced to public notice; but with one exception it may be asserted, that they have been ind altogether deficient in those jusprinciples upon which such instru in a few years that a Fruss has been invented by Dr. A. G. Huli, a respec-Table Physician and Surgeon of New York, and late President of the Ouri A Medical Society, which is incom parably superior in its principles and properties to any of those previously

n use. Dr Hull is exclusively entiled to the credit of first ad opting the rue surgical principle for the radical ed the idea that the pad of the Truss hould be so constructed as simply to support the muscular fibres around ring or aperture as much as pos sible, in the state in maintained in perfect health. Unless-this he attained the parts can never recover their natural tone, whatever may be the degree of pressure appli-

Valentine Mott, M D Professor of Surgery in the University of New

York deposes:
The great and signal benefits which are produced by this Truss result from its strict subservance to and accordance with Scientific and surgical principles. Its mechanical of its construction the limited motion nicely graduated by experiment, to and to the action of the muscles; the permanency of its location on the bo pressure on the circum qualities, the tendency of which is to trengthen and restore the weakened deris, to contract the aperture, and iltimately to accomplish a cure of the

"The operation and effects of this Ordered. That the sale made and Truss is therefore directly the reverse of all Trusses heretofore in use he dimensions of the rupture open "I have adopted it in my practice to the exclusion of all others and am of opinion that the union of physical design and mechanical struc ure in this instrument render it what is long been the desideratum of practical surgeons in Europe and A-S

T. W Hunter, M D of N. York deposes as follows. "In two very in-teresting cases of Scrotal Hernia (which is the worst and most difficult kind) that came under my care, it was worn with perfect comfort, and effected a complete cure of both in less than twelve months. This Truss approved of by the most eminent urgeons in the United States and Europe particularly by the celebrat-ed Sir Astley Cooper, of London.

Joseph Evans, late of Philadelphia. Leather Merchant deposes as follows "Having been ruptured about seven years ago, I applied to Dr. Hull, in person, who furnished me with one person, who furnished me with one of his Trusses, and after wearing it a hout six months, I found myself entirely cured so much so that I can walk about with safety, without wear ing the Truss; and in my opinion it is one of the greatest improvements and blessings to mankind that is known.

Extract from the Medical Review and Journal, conducted by Professors Eberle and M. Ciellan, Philadelphia,

that we cannot avoid offering our testimony in favour of the new Truss, which we consider as altogether the

subject, are kept at the office of Dr Knape, No. 37 East Fayette atreet, opposite the First Presbyterian Church who will attend to their application. &c, and where those labouring under this disease are invited to cail. sons residing at a distance can be fit ted by sending a measure of the body near the hip. > PROPOSAL FOR PRINTING

The Journals of the Conventions of the Province of Ma. ryland,

Held in the City of Annapolis, in the years 1774, 1775 and 1776.

IF Sufficient encouragement be of fered, the Subscriber proposes to pub-lish, in one volume octavo, the Jour nals of the Conventions of the Province of Maryland in the years 1774, '5 and '6. It is believed that there are not nore than two copies of these Journals low extant; and from the circumstance mat they were printed in pamphlet form, and unbound, it may be fairly concluded that they, too, must in a few years be destroyed by the mere decay f time. These Journals are the only authentic evidence of the Political Hisory of Maryland, during that interesing and unquiet period. Although Maryland, as connected with the association of Provinces and Colonies, at that time formed, for mutual protection against the improper assumption of power on the part of the Mother Country, yet none of these works embrace

that may be termed its Domestic and Internal Political History.
This part of the history of Maryland it should be her pride to hand down to posterity, not only on account of its deep interes, but as a public State Record of the voluntary sacrifi

ces, daring spirit, and determined re-solution, of her citizens, during this period of doubt and dismay. In the confident expectation that the citizens of Maryland will consider the proposed publication of sufficient im-portance to entitle it to their patron-age, the Subscriber is induced to issue

these proposals.

The Price per Copy, not to exceed 82 00.

J. GREEN.
